

1. Determine the volume of the cylinder.

Volume = _____ (E)

Volume = _____ (E)

Volume = _____ (E)

2. Determine the volume of the cylinder with the center removed.

Volume = _____ (E)

Volume = _____ (E)

Volume = _____ (E)

3. Determine the volume of the solid.

Volume = _____ (E)

Volume = _____ (E)

4. Determine the volume of the cones.

Volume = _____ (E)

Volume = _____ (E)

Volume = _____

Volume = _____ (E)

5. Determine the volume of the composite figures.

b) Square hole with sides of 3 cm
